\* Estimate of additional Beer and Spirit duties collected for Local Authorities (see Table No. 14, pp. 55-7).

† It will be observed that the net receipts brought to account in the year 1898-9, viz. - - - - - 21,653,237  
exceeded the Exchequer Receipts (see Table No. 4, p. 2), viz. - - - - - 20,800,000

by - - - - - 703,237

This difference is due to abnormal Clearances during the last few days of 1898-9 on account of —

(a.) Tax, estimated at - - - - - £ 100,000  
(b.) Tobacco, estimated at - - - - - 610,000

Total - - - 710,000

Such clearances were made in anticipation of a possible increase of the duty on these articles. The amounts thus collected in 1898-9, which properly belonged to 1899-1900, were accordingly held over and not paid into the Exchequer until after 31st March 1899.

† Exclusive of Local Tax. \* Local Licences collected for Local Authorities (see Table No. 14, pp. 55-7).

The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and with the Continent of Europe between the River Humber and Great Britain. The Foreign Trade includes vessels trading or going beyond the above limits. Some vessels known to be trading abroad are omitted from the Return owing to the fact that no late information of the number of their crews could be obtained.

\* On the 1st January of the year following that stated.

† The Militia strength is that at the

date of inspection, except for the years 1900, 1901, and 1902, when the date was 1st July. The Reserve Division strength is that on the 1st July.

‡ At the date of inspection.

§ On the 1st November in each year.

¶ The decrease between 1899 and 1900 is due to the number of men called out in the latter part of 1899 for permanent service. The number so called out form part of the Regular Army, but the increase in the number of the Regular Army, shown in the previous Table, does not correspond with the decrease shown in this Table, because the average strength of the Regular Army for the year is shown and not the number at a given date, as in the case of the Army Reserve.

‡ Includes 2,102 Volunteers

† The numbers given are the total numbers returned from each Union as relieved on the 1st January or the 1st July including those discharged from and admitted to the Casual Wards during those days. It is probable that they include certain number who received relief in more than one Union on the same day.

‡ The figures in this column represent the net total of persons relieved, after making the necessary deduction in respect of certain persons counted twice in the preceding columns, such, for instance, as persons who received indoor as well as outdoor relief on the days mentioned.

§ Of the total number of inmates paupers returned as receiving outdoor relief on the 1st January in each of the years 1800-1860 the number shown as being in county and borough asylums, &c., is taken from the Reports of the Local Commissioners.

|| The numbers of inmates paupers in receipt of outdoor relief on the 1st July cannot be distinguished from those in county and borough asylums, &c., for the years previous to 1804. The numbers are therefore only included in the column headed "Net total of persons relieved."
